BRITISH THREAT AGAINST MONROE DOCTRINE

MANY SO DEEM ACTION TAKEN BY ENGLAND

ADMINISTRATION DETERMINED TO SETTLE NICARAGUAN TURMOIL

U. S. WILL NOT WILLINGLY PER- MIT BRITISH WARSHIP TO INTERVENE

By LUDWELL DENNY
(United Press Staff Correspondent)

Washington, Feb. 24.—Faced with what some deemed a British threat against the Monroe Doctrine, the administration was determined today to settle the Nicaraguan turmoil without foreign interference. This government will not willingly permit a British warship to intervene, it was said.

The United States, however, will not interpret as intervention the presence of a British warship in Nicaraguan waters as a place of refuge for British citizens so long as the warship does not interfere in the local situation.

In a brief press reply to a British warship to Nicaragua, Secretary of State Kellogg said:

"Admiral Latimer (American commander) has been instructed from the beginning to protect foreign as well as American lives and property and is doing everything he can to do so."

The British note delivered Feb. 22 to the American minister at Managua, caused excited and contradictory comment among members of congress.

Some senators viewed it as an insult to the United States and a challenge to the Monroe Doctrine. Others interpreted it as a friendly British move to strengthen the administration's justification of American intervention in face of congressional opposition.

Managua, Feb. 24.—Great Britain's proposal to send a warship to Nicaragua to protect lives and property of Britishers introduced new complications in the confused situation in this country today.

The British note followed closely President Diaz' proposal for the United States to assume a 100-year modified protectorate over Nicaragua exercising control over its finances and armed forces, and in exchange arranging a loan to the country.

Britain's warship proposal was announced in a note handed to U. S. Minister Eberhardt by Harold Patterson, British charge d'affaires. It said:

"I have the honor to inform your excellency that in the absence of guarantees from the Nicaraguan and United States government for protection of the lives and properties of British subjects in the event of further street fighting, incendiarism and pillage in the threatened districts of this republic, His Britannic Majesty's government is reluctantly contemplating the dispatch of a man of war to the western coast of Nicaragua. It is with pleasure that I am instructed to inform your excellency that His Majesty's government thanks the government of the United States once more for its assistance and still continues to rely thereon."

BRITAIN WILL SEND CRUISER TO NICARAGUA

By CLIFFORD L. DAY
(United Press Staff Correspondent)

London, Feb. 24.—Great Britain has decided to send a cruiser to Nicaragua to act as a place of refuge for British subjects in the event of further fighting there, the foreign office announced today.

Replying to questions at the foreign office, the spokesman for the British government said Britain did not expect to improve on the protection already provided by United States warships, sailors and marines in Nicaragua, but that the British action merely was to provide a British place of refuge.

"The British charge d'affaires at Managua," the foreign office announced, "having reported to his government that his United States colleagues could give no guarantee of protection of British lives and property in the event of further fighting, the British government has decided to send the cruiser to act as a place of refuge for British subjects."

"In informing the United States government of this step," the foreign office announced, "the British government expressed its gratitude for assistance given by the United States

CHESAPEAKE RIVER BOAT IS RAMMED, SUNK

SISTER SHIP OF SAME LINE IN COLLISION ON THE POTOMAC

SURVIVING SHIP RESCUES CREW OF THE OTHER VESSEL

Baltimore, Feb. 24. — (UP)—A Chesapeake steamship line river boat was rammed and sunk by a sister ship of the same line at the mouth of the Potomac river early today, reports to the line's headquarters here said.

The surviving ship rescued the crew of the other vessel, the reports said.

Washington, Feb. 24.—The Chesapeake steamship City of Annapolis collided with the City of Richmond, sister ship of the same line, sinking the City of Annapolis in the Chesapeake Bay between Annapolis, Md., and Norfolk, Va., early today.

No lives were lost, according to radio dispatches from the steamship St. Anthony. The St. Anthony was standing by to help.

The sunken ship was bound from Richmond to Baltimore.

The passengers were reported taken by the City of Richmond, and probably will be landed either at Norfolk, or at West Point, the Richmond terminal of the line.

One report said the City of Richmond rammed the other vessel.

The navy messages gave the location of the collision as a mile from Smith's Point, near Annapolis. Other reports placed it farther down Chesapeake Bay, near the mouth of the Potomac river.

Portland, Ore., Feb. 24. — Steam schooner Mary E. Moore was pounding to pieces today on a bar off the Coquille river. Her captain and crew of 28 were taken aboard the steamer Admiral Peary.

The schooner struck the Brandon bar while attempting to enter the Coquille river. Heavy seas running over the bar were expected to make short work of the ship.

government in the past and on which it will continue to rely."

London, Feb. 24.—Great Britain has decided to send a cruiser to Nicaragua and the admiralty informed the United States today that H. M. S. Colombo was due there tomorrow. The vessel was believed to have left the British West Indies naval station Tuesday.

The Colombo, the foreign office said today, would act as a place of refuge for British nationals in the event of further fighting.

British authorities informed the United Press today they were unable to see how the dispatch of the Colombo to Nicaragua could be interpreted as an infringement of the Monroe Doctrine. The vessel was being sent, it was explained, purely for pacific purposes to aid in the removal of refugees in the event the United States could not protect the British population of the country.

London, Feb. 24.—It was understood here today that the British cruiser Colombo would arrive off the Nicaraguan coast tomorrow from British West Indies station.

The Colombo is a new cruiser completed in June, 1919, displacement 4,190 tons, and complement of 425 to 462 men, according to Jane's fighting ships. She carries five 6-inch guns, two 3-inch guns, four 2-pounders, two machine guns and eight Lewis guns. The Colombo's eight 21-inch torpedo tubes are mounted above the water line. The vessel is of the Cardiff class of the emergency war program ships, ordered in April, 1916.

Drastic Measures to Enforce Prohibition Act in Minnesota Beginning on March 1

FILIBUSTER ON OVER BOULDER CANYON DAM

PROCEEDS MORE FIRMLY THAN EVER IN THE SENATE TODAY

COMPROMISE IS OBVIOUSLY IM- POSSIBLE; NOT EVEN TALKED OF

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, Feb. 24.—After six days of unbroken fighting including one all-night session, the filibuster over the Boulder Canyon Dam will proceed more firmly than ever in the senate today.

Consideration of routine business prevented Senator Hiram Johnson, republican, California, leading the fight for the bill, and Senator Henry Ashurst, democrat, Arizona, leading the filibuster, from coming to grips immediately upon convening of the senate at noon but they were both in the chamber marshaling their forces for more conflict.

Though still in his best fighting mood, Johnson did not appear optimistic since new hazards had been put in the path of the bill by adherents of the alien property measure. He is attempting an arrangement whereby the senate would take up the alien property bill only temporarily, leaving his measure still with the right of way.

This afternoon there appeared to be no intention of forcing another all-night battle, as it appeared neither side could gain much by such a harrowing procedure.

If Johnson can negotiate his tentative truce to enable discussion of the alien property bill, actual fighting will not be resumed until after that measure is disposed of.

The same sort of grim determination which caused senators to sit 30 hours and 15 minutes through two days and a night until 5:15 P. M. yesterday, characterized announcements from generals of the opposing forces as they came fresh from a night's sleep to renew the battle.

Compromise was obviously impossible. It was not even being discussed. By common consent it was made a fight to the end with the seasoned warrior, Senator Johnson, trying by every means to keep his bill before the senate and the filibuster behind Senator Ashurst, democrat, Arizona, promising to use their last ounce of energy to ditch the measure with its proposal for a \$125,000,000 power and flood control dam in the lower Colorado river.

Developments just as sensational as those which already have made this the foremost legislative battle of a decade are expected before a decision is reached sometime during the six remaining days of the session.

Johnson told the United Press he would stick to the last. He was firm in the belief that the justice of his bill will triumph in the end over the small but militant opposition. "We have the votes," he said, "if we can only get a vote."

Ashurst declared the bill would never be permitted to pass as long as he could "raise my voice or lift my hand."

CHOKED TO DEATH EATING PIECE OF MEAT

St. Paul, Feb. 24. — (UP)—Choking on a piece of meat while eating supper with friends, John Knoop, 60 years old, died late Wednesday when first aid efforts to extract the meat from his throat failed.

Visiting friends who live on a houseboat, Knoop was invited to share their evening meal and he did so with disastrous results. Death of Knoop was pronounced due to natural causes induced by choking, according to Dr. R. C. Hernon, deputy coroner, who investigated the case.

'300 CLUB' OF TEXAS GUINAN IS PADLOCKED

New York, Feb. 24. — (UP)—Night club devotees who prefer to spend their early morning in the merry place presided over by Texas Gulman must wait a month or so before she returns to Broadway.

The "300 club," where a week ago Miss Gulman entertained Mrs. Aimee Semple McPherson among others, has been padlocked.

Texas will spend the next few days in an effort to persuade the government she was not guilty of contempt of court in connection with alleged violation of the prohibition act. Then will come a fortnight's rest in Havana. After that, Texas will return to New York and reopen a club on which the government padlock has grown rusty.

PEACHES BROWNING REFUSES INTERVIEW

GIVES GLASSY STARE TO EAGER REPORTERS AT NEW YORK DOCK

New York, Feb. 24. — (UP)—Journalistic traditions tottered today when Frances Peaches Heenan, 16-year-old wife of Edward W. Browning, refused to be interviewed.

The plump Mrs. Browning, weighing a few pounds less after a brief holiday in Bermuda, returned aboard the Furness-Bermuda liner Ft. St. George and turned a glassy stare toward the eager reporters pressing about her.

"I am sorry but I can't say anything," she told them, and that was that.

After the boat had docked, she and her mother, Mrs. Caroline T. Heenan, entered a taxicab only slightly resembling Browning's rented Rolls-Royce, and sped homeward.

FIRE DAMAGES MANILA, P. I.

FOUR BLOCKS BUSINESS SECTION RAZED, DAMAGE OF \$2,000,000

Manila, P. I., Feb. 24. — (UP)—Fire did \$2,000,000 damage in Manila today. Four blocks of business buildings in the downtown section were razed.

Flames which spread rapidly after an explosion at 1 A. M. left the buildings of 29 of the city's leading firms in ruins.

A strong wind caused the fire to threaten a wide section of Manila for a time. Efforts of firemen, soldiers and civilian volunteers, however, kept the blaze within the four blocks.

Cause of the original explosion was unknown. Authorities were investigating possibility of incendiarism.

A. N. JACOBS NOW READY TO 'TELL ALL'

SEEK TO INVESTIGATE CHARGES OF BOOTLEGGERS SUPPLY- ING ELECTION FUNDS

St. Paul, Feb. 24. — (UP)—Sen. Victor E. Lawson, Willmar, introduced a resolution in the upper house here today calling for an investigation of charges that bootleggers supplied election funds in the campaign of U. S. Sen. Thomas D. Schall.

A. N. Jacobs, Minneapolis, Schall's campaign manager, who is credited with having prompted the investigation, is said to be ready to "tell all."

The senate rules committee took the resolution under advisement and will announce later its decision concerning the appointment of a committee to conduct the investigation.

ANNOUNCED BY GEN. RHINOW, NW. ADMINISTRATOR

TO SEEK CONVICTION OF OFFEN- DERS ON TWO CHARGES INSTEAD OF ONE

TO PROVIDE ROAD TO PADLOCK PREMISES IN WHICH OFFEN- DERS ARE ARRESTED

St. Paul, Feb. 24. — (UP)—Drastic measures to enforce the prohibition act in Minnesota by seeking conviction of offenders on two charges instead of one will be adopted by Minnesota beginning March 1, it was announced by General Walter F. Rhinow, northwest administrator.

Each violator will be charged with the operation of a nuisance in addition to sale or possession of liquor charges that may be lodged against him, General Rhinow said. This will provide a road for padlocking the premises in which offenders are arrested.

"Heretofore, we have used the nuisance charge only occasionally," General Rhinow said. "It has been charged against persons only in flagrant cases, where we discovered violations had been going on for some time. From now on, however, each person arrested will be charged with sale and nuisance, or possession and nuisance, or all three."

The government padlock, which closes buildings for a year, General Rhinow pointed out, is the most effective way of combatting the illicit distribution of liquor.

"Experience has shown us that where building owners have been deprived of the use of their buildings when violations have occurred in them they are pretty careful about their tenants, and do not allow questionable persons to rent them," he said.

The padlock policy recently was urged by federal court judges and the United States district attorney, who announced that suits will be instituted immediately after conviction to abate nuisances.

PROTESTS AGAINST RULINGS MADE

Washington, Feb. 24. — (UP)—Protesting against rulings by Chairman Graham, republican, Pennsylvania, Rep. La Guardia, republican, New York, threatened today to withdraw from the judiciary committee impeachment proceedings against Federal Judge Frank Cooper of the northern district of New York.

La Guardia became irked at Graham's order to the committee stenographer not to record a statement he made about bootlegging cases tried by Cooper. Previously, Graham, over La Guardia's protest, prohibited witnesses from answering numerous questions by the New York member.

Testimony during the forenoon had dealt with alleged discussions between a former New York city administrator and Judge Cooper concerning breaking up of New York border rum rings.

When La Guardia protested to Graham that the latter was "arbitrary," Graham retorted:

"You can't give orders or make speeches here."

La Guardia continued his protests but Graham pounded for order, and calm was finally restored.

Louis refused to give a bat to John. The latter ran into his house, found his father's shotgun, and then pointed it at his playmates. All ran but Louis who refused to throw up his hands.

John fired and Louis died instantly.

AMERICAN SHIP SCANDIA AGROUND AND WRECKED

AT POINT 14 MILES EAST OF KODIAK HARBOR BELL BUOY

ENTIRE CREW SAFELY ASHORE, BUT THE BOAT IS TOTAL WRECK

Cordova, Alaska, Feb. 24. — (UP)—Another tragedy along the treacherous Alaskan coast was recorded today when the International Fisheries Commission schooner Scandia ran aground 14 miles east of the bell buoy entrance of Kodiak harbor and was wrecked.

Two hours after the Scandia had grounded, the crew was reported safe ashore, having taken off in small boats. Six men, including the radio operator, were left aboard when the boats first put off, but one boat was returned for them.

First word of the disaster came in an S. O. S. call copied by the radio station at Kodiak at 12:58 A. M. Word was spread among the town folk and in a few minutes several small fishing boats were headed to the open sea to render whatever aid possible.

At 1:45 the Scandia reported the rescue boats were approaching but because of the high seas could not get near. The crew then started pulling away, as the boat commenced to break up rapidly.

Word that all the crew was safe reached here at 3 A. M. by radio. The boat, however, was a total loss, it was reported.

The Scandia had been cruising in Alaskan waters for the past three or four months in the interests of the fishing industry, and had on board a group of men representing the International Fisheries Commission.

CONTEST ARBITRARY RAIL VALUATIONS

Kansas City, Mo., Feb. 24. — (UP)—Authority of the Interstate Commerce commission to put arbitrary valuations on railroad properties for rate-making purposes will be contested in the supreme court by the Kansas City Southern railway, Roscoe C. Patterson, United States district attorney, said late yesterday. The solicitor-general in Washington has ordered him to appeal the case, the solicitor said.

The suit to test the case was brought by the railroad and heard last December in federal court here and resulted in an injunction being granted the railroad to prohibit the commission from fixing a valuation on it. The Kansas City Southern appraised its properties at \$65,000,000 and the commission's valuation was \$49,000,000.

The supreme court appeal of the Kansas City Southern takes its significance from the fact several other railroads are said to have disagreed with the commission over valuations.

WEIRD ADVENTURES WITH PYGMIES IN DUTCH NEW GUINEA

Boston, Mass., Feb. 24. — (UP)—Bringing tales of weird adventure in the far reaches of Dutch New Guinea where they dared death for five months while studying the pygmy tribes, five explorers arrived here on the Dollar liner President Adams.

Members of the expedition were Prof. W. W. Stirling of Berkeley, Calif., B. K. Peek of St. Petersburg, Fla., H. H. Hoyt of New York, Stanley Hedberg of Chicago and Albert Hamer of Colfax, Iowa.

Many of the explorations were made by airplane, more than 3,000 miles having been covered by air.

BRITAIN NOW READY FOR INSTANT ACTION

TENSITY OF THE SITUATION AT TREATY PORT INCREASING HOURLY

ABOUT 15,000 FOREIGN FIGHT- ING MEN FOR DEFENSE OF LIVES AND PROPERTY

By H. FRANCIS MISSEWITZ
(United Press Staff Correspondent)

Shanghai, Feb. 24.—British howitzers and machine guns were landed here today upon reports that the advance guard of the Cantonese nationalists had passed Kaishing, 50 miles south, and were proceeding rapidly toward Shanghai.

British forces here were ready for instant action. The tensivity of the situation was increasing.

It was understood that the Cantonese sought to capture Sun Kiang, about 30 miles south of Shanghai, and the last northern stronghold lying between the Cantonese and this city, before the arrival of Chinese reinforcements from the north.

Approximately 15,000 foreign fighting men were available today for the defense of foreign lives and property.

Two first line United States destroyers arrived today several hours after 1,200 United States marines had arrived aboard the U. S. S. Chaumont. The destroyers were the Noa and the Preble. Another United States destroyer was due to arrive here from Manila tomorrow.

Naval authorities said the arrivals were routine squadron matters, and that there was no plan to increase the present force here, although all three of the destroyers might remain here in the event of immediate trouble.

The general strike was called off at 1 P. M. today, but many workers still were idle. It was reported from Chinese sources today that a food strike was planned for tomorrow. The Chinese, the report said, neither would sell nor serve food, observing a day of fasting themselves, in protest against the continued rule of Marshal Sun Chuan-fang here.

Shanghai, Feb. 24.—Twelve hundred United States marines arrived here today to help defend Americans endangered by the warring Chinese. The marines were aboard the U. S. S. Chaumont, which docked almost unnoted.

Although British marines are marching through Shanghai almost daily with bayonets fixed, the Americans will avoid any display of strength which might cause animosity. They probably will be exercised across the river, although they may march through the foreign settlement later.

"I strongly favor avoiding demonstrations, and if the troops march through the street, I would recommend that they not carry rifles," U. S. Consul General Lockhart told the United Press.

Arrival of the American marines found Shanghai more quiet than it has been for days, with the general strike admittedly weakening and the reign of terror slackened.

Leading unions were reported to be considering plans to cancel the strike which has tied up transportation, mail delivery and many industries. Mail delivery was approaching normal today.

The number of executions during the week was estimated at from 50 to 100. Many heads of victims still were visible today on posts, and agitators, taking the hint, were confining their activities to back alleys.

Meanwhile, troops of the north China warlords were reported getting into position to halt the Cantonese armies in their northward drive, hoping to score a decisive defeat which will end the threat to Shanghai. If they lose, they were reported to be planning a second stand near enough to Shanghai to endanger foreigners and possibly force Occidental troops into the fray.

Sun Chuan-fang, defender of Shanghai, is a mysterious figure in the new coalition of northern forces. Reports he had abdicated in favor of Huih Slang-Ting were wholly unverified. One rumor said he had returned to Shanghai from Nanking, where he had gone to confer with (Continued on page 4)

OF BOOTLEGGERS SUPPLY-
ING ELECTION FUNDS

St. Paul, Feb. 24.—(UP)—Sen. Victor E. Lawson, Willmar, introduced a resolution in the upper house here today calling for an investigation of charges that bootleggers supplied election funds in the campaign of U. S. Sen. Thomas D. Schall.

A. N. Jacobs, Minneapolis, Schall's campaign manager, who is credited with having prompted the investigation, is said to be ready to "tell all."

The senate rules committee took the resolution under advisement and will announce later its decision concerning the appointment of a committee to conduct the investigation.

ANNOUNCED
BY GEN. RHINOW,
NW. ADMINISTRATORTO SEEK CONVICTION OF OFFEN-
DERS ON TWO CHARGES
INSTEAD OF ONETO PROVIDE ROAD TO PADLOCK
PREMISES IN WHICH OFFEN-
DERS ARE ARRESTED

St. Paul, Feb. 24.—(UP)—Drastic measures to enforce the prohibition act in Minnesota by seeking conviction of offenders on two charges instead of one will be adopted by Minnesota beginning March 1, it was announced by General Walter F. Rhinow, northwest administrator.

Each violator will be charged with the operation of a nuisance in addition to sale or possession of liquor charges that may be lodged against him, General Rhinow said. This will provide a road for padlocking the premises in which offenders are arrested.

"Heretofore, we have used the nuisance charge only occasionally," General Rhinow said. "It has been charged against persons only in flagrant cases, where we discovered violations had been going on for some time. From now on, however, each person arrested will be charged with sale and nuisance, or possession and nuisance, or all three."

The government padlock, which closes buildings for a year, General Rhinow pointed out, is the most effective way of combatting the illicit distribution of liquor.

"Experience has shown us that where building owners have been deprived of the use of their buildings when violations have occurred in them they are pretty careful about their tenants, and do not allow questionable persons to rent them," he said.

The padlock policy recently was urged by federal court judges and the United States district attorney, who announced that suits will be instituted immediately after conviction to abate nuisances.

PROTESTS AGAINST
RULINGS MADE

Washington, Feb. 24.—(UP)—Protesting against rulings by Chairman Graham, republican, Pennsylvania, Rep. La Guardia, republican, New York, threatened today to withdraw from the judiciary committee impeachment proceedings against Federal Judge Frank Cooper of the northern district of New York.

La Guardia became irked at Graham's order to the committee stenographer not to record a statement he made about bootlegging cases tried by Cooper. Previously, Graham, over La Guardia's protest, prohibited witnesses from answering numerous questions by the New York member.

Testimony during the forenoon had dealt with alleged discussions between a former New York dry administrator and Judge Cooper concerning breaking up of New York border rum rings.

When La Guardia protested to Graham that the latter was "arbitrary," Graham retorted:

"You can't give orders or make speeches here."

La Guardia continued his protests but Graham pounded for order, and calm was finally restored.

AMERICAN SHIP
SCANDIA AGROUND
AND WRECKEDAT POINT 14 MILES EAST OF
KODIAK HARBOR BELL
BUOYENTIRE CREW SAFELY ASHORE,
BUT THE BOAT IS TOTAL
WRECK

Cordova, Alaska, Feb. 24.—(UP)—Another tragedy along the treacherous Alaskan coast was recorded today when the International Fisheries Commission schooner Scandia ran aground 14 miles east of the bell buoy entrance of Kodiak harbor and was wrecked.

Two hours after the Scandia had grounded, the crew was reported safe ashore, having taken off in small boats. Six men, including the radio operator, were left aboard when the boats first put off, but one boat was returned for them.

First word of the disaster came in an S. O. S. call copied by the radio station at Kodiak at 12:58 A. M. Word was spread among the town folk and in a few minutes several small fishing boats were headed to the open sea to render whatever aid possible.

At 1:45 the Scandia reported the rescue boats were approaching but because of the high seas could not get near. The crew then started pulling away, as the boat commenced to break up rapidly.

Word that all the crew was safe reached here at 3 A. M. by radio. The boat, however, was a total loss, it was reported.

The Scandia had been cruising in Alaskan waters for the past three or four months in the interests of the fishing industry, and had on board a group of men representing the International Fisheries Commission.

CONTEST ARBITRARY
RAIL VALUATIONS

Kansas City, Mo., Feb. 24.—(UP)—Authority of the Interstate Commerce commission to put arbitrary valuations on railroad properties for rate-making purposes will be contested in the supreme court by the Kansas City Southern railway, Roscoe C. Patterson, United States district attorney, said late yesterday. The solicitor-general in Washington has ordered him to appeal the case, the solicitor said.

The suit to test the case was brought by the railroad and heard last December in federal court here and resulted in an injunction being granted the railroad from fixing a valuation on it. The Kansas City Southern appraised its properties at \$55,000,000 and the commission's valuation was \$49,000,000.

The supreme court appeal of the Kansas City Southern takes its significance from the fact several other railroads are said to have disagreed with the commission over valuations.

WEIRD ADVENTURES
WITH PYGMIES IN
DUTCH NEW GUINEA

Boston, Mass., Feb. 24.—(UP)—Bringing tales of weird adventure in the far reaches of Dutch New Guinea where they dared death for five months while studying the pygmy tribes, five explorers arrived here on the Dollar liner President Adams.

Members of the expedition were Prof. W. W. Stirling of Berkeley, Calif., B. K. Peek of St. Petersburg, Fla., H. H. Hoyt of New York, Stanley Hedberg of Chicago and Albert Hamer of Colfax, Iowa.

Many of the explorations were made by airplane, more than 3,000 miles having been covered by air.

BRITAIN NOW
READY FOR
INSTANT ACTIONTENSITY OF THE SITUATION AT
TREATY PORT INCREASING
HOURLYABOUT 15,000 FOREIGN FIGHT-
ING MEN FOR DEFENSE OF
LIVES AND PROPERTYBy H. FRANCIS MISSELTWITZ
(United Press Staff Correspondent)

Shanghai, Feb. 24.—British howitzers and machine guns were landed here today upon reports that the advance guard of the Cantonese nationalists had passed Kaishing, 50 miles south, and were proceeding rapidly toward Shanghai.

British forces here were ready for instant action. The tensity of the situation was increasing.

It was understood that the Cantonese sought to capture Sun Kiang, about 30 miles south of Shanghai, and the last northern stronghold lying between the Cantonese and this city, before the arrival of Chinese reinforcements from the north.

Approximately 15,000 foreign fighting men were available today for the defense of foreign lives and property.

Two first line United States destroyers arrived today several hours after 1,200 United States marines had arrived aboard the U. S. S. Chaumont. The destroyers were the Noa and the Preble. Another United States destroyer was due to arrive here from Manila tomorrow.

Naval authorities said the arrivals were routine squadron matters, and that there was no plan to increase the present force here, although all three of the destroyers might remain here in the event of immediate trouble.

The general strike was called off at 1 P. M. today, but many workers still were idle. It was reported from Chinese sources today that a food strike was planned for tomorrow. The Chinese, the report said, neither would sell nor serve food, observing a day of fasting themselves, in protest against the continued rule of Marshal Sun Chuan-fang here.

Shanghai, Feb. 24.—Twelve hundred United States marines arrived here today to help defend Americans endangered by the warring Chinese. The marines were aboard the U. S. S. Chaumont, which docked almost unnoticed.

Although British marines are marching through Shanghai almost daily with bayonets fixed, the Americans will avoid any display of strength which might cause animosity. They probably will be exercised across the river, although they may march through the foreign settlement later.

"I strongly favor avoiding demonstrations, and if the troops march through the street, I would recommend that they not carry rifles," U. S. Consul General Lockhart told the United Press.

Arrival of the American marines found Shanghai more quiet than it has been for days, with the general strike admittedly weakening and the reign of terror slackened.

Leading unions were reported to be considering plans to cancel the strike which has tied up transportation, mail delivery and many industries. Mail delivery was approaching normal today.

The number of executions during the week was estimated at from 50 to 100. Many heads of victims still were visible today on posts, and agitators, taking the hint, were confining their activities to back alleys.

Meanwhile, troops of the north China warlords were reported getting into position to halt the Cantonese armies in their northward drive, hoping to score a decisive defeat which will end the threat to Shanghai. If they lose, they were reported to be planning a second stand near enough to Shanghai to endanger foreigners and possibly force Occidental troops into the fray.

Sun Chuan-fang, defender of Shanghai, is a mysterious figure in the new coalition of northern forces. Reports he had abdicated in favor of Huih Slang-Ting were wholly unverified. One rumor said he had returned to Shanghai from Nanking, where he had gone to confer with (Continued on page 4)

SLAYER CLOSELY FOLLOWED BY BLOODHOUNDS

Springfield, Mo., Feb. 24.—(UP)—Followed closely by bloodhounds for 48 hours, A. J. Clark, slayer of William Irby, was captured late last night by a posse of officers and citizens 20 miles southeast of Ava in the Ozark hills.

Immediately afterward he was placed in jail and only the speeches of Judge Fred Stewart and James Irby, brother of the slain man, prevented a mob from taking Clark from his cell. Stewart promised the enraged crowd there would be a speedy trial.

Irby was a wealthy and prosperous farmer. Clark shot him to death in the presence of several persons and threatened them if they tried to prevent his escape.

SLAYER CLOSELY FOLLOWED BY BLOODHOUNDS

Springfield, Mo., Feb. 24.—(UP)—Followed closely by bloodhounds for 48 hours, A. J. Clark, slayer of William Irby, was captured late last night by a posse of officers and citizens 20 miles southeast of Ava in the Ozark hills.

Immediately afterward he was placed in jail and only the speeches of Judge Fred Stewart and James Irby, brother of the slain man, prevented a mob from taking Clark from his cell. Stewart promised the enraged crowd there would be a speedy trial.

Irby was a wealthy and prosperous farmer. Clark shot him to death in the presence of several persons and threatened them if they tried to prevent his escape.

STRUCK BY HIT AND RUN DRIVER, WOMAN IS KILLED

Mrs. Ryan died while surgeons were making frantic efforts to save her life. Hasty examination of Mrs. Kelly revealed several broken bones and concussion of the brain. She is in a critical condition. Pedestrians later reported that a car, apparently occupied by two drunken men, was seen careening along the avenue.

Bristol, Pa., Feb. 24.—(UP)—Sheriff Abram Kulp, 60, of Doylestown who was shot when he attempted to serve divorce papers on Ernest Reiker at his South Langhorne home yesterday, died today in the Harrisman hospital. Mrs. Reiker was killed at the same time.

GROWING CHILD NEEDS A PAT ON THE BACK

ALSO A MOTHER'S KISS AND
BRIGHT SMILE OF
HIS ELDERS

IN ORDER TO AVOID NATURAL
INFERIORITY
COMPLEX

By MAX BUCKINGHAM
(United Press Staff Correspondent)
Chicago, Feb. 24. — A growing child needs a pat on the back, a mother's kiss and the bright smile of his elders in order to avoid an almost natural inferiority complex, Dr. Herman Adler, Viennese psychiatrist, believes.

"Impress the child with the belief that everything he does is wrong, that other children are his superiors and that his little mistakes are mountainous, then he becomes a failure," Dr. Adler told a group of parents.

"Only courage is able to develop all the potential faculties and capabilities of the child; lack of courage spells retarded development," the psychiatrist, who was at one time an associate of Dr. Sigmund Freud, said.

"The discouraged child becomes the neurotic, the depressed, the problem child."

Misunderstanding parents and in-

structors often cause the personality of the child to wither, he declared. The feeling of inferiority results in sleeplessness and suffering which is carefully hidden away from the elders.

"A child is naturally cynical of his own capability and accepts defeat as proof of his inferiority," he said. "The child's attitude is mistaken and he finds solace in little tricks to satisfy his craving for affection."

"He takes home bad school reports because parents are more concerned with them. He cultivates stammering because this draws more attention. He likes to be spoiled because this brings an enjoyment from the spoiling."

There is one way to offset this feeling, Dr. Adler believes. That is to impress upon the child mind that he is doing everything well and is able to do a lot of things far better.

"Like grown ups, whose emotional counterpart he is, the child must be imbued with self confidence and courage to succeed," Dr. Adler said.

HEDDA HOYT TELLS-- OF HATS AND FLOWERS

By HEDDA HOYT

New York, Feb. 24. — (UP)—Fickle Dame Fashion forsakes the mannish trend in millinery for feminine trimmings of feathers and flowers as Spring approaches. Flowers, which have been entirely forsaken by the milliners, are again pronounced the last word in trimming. Feathers, also, are flying high.

Felt hats worn by fashionists returning from Paris use either large single flowers of velvet georgette or small clusters of flowers as trimmings of medium brims and turbans. Where the brim is narrow or medium the large chrysanthemum, two-toned rose or cluster of violets is placed at the side back with petals extending over the brim. Wider brims even use the under-brim flower trim. Small turbans have large-petaled flowers at the side front or clusters of small flowers over the ears. Black felt shapes trimmed in white chrysanthemums or violets are popular.

Navy blue felts trimmed in white are also favored since the vogue for navy is gaining in popularity daily.

Feather flowers are sponsored this season although they failed to meet with much success last Spring. Feather flowers are prettiest when in harmonizing color with the hat. Somehow feathers carried out in flower colorings are not as effective as feathers carried out in solid costume tones. Shades of green, violet and purple are important millinery trims at present.

Instead of the flower shoulder corsage we occasionally see a feather corsage worn on the shoulder of the evening gown. A popular devotee of the Opera wore a huge spray of coque feathers on the shoulder of a white chiffon gown beaded in black crystals. An emerald green chiffon gown seen the same evening had a shoulder corsage of green-dyed ostrich in shaded tones. Feather flowers in small clusters are worn on the lapel of the street costume occasionally, although one must admit that artificial flowers are more effective for day wear.

The afternoon or evening gown that is without a corsage seems rather lacking in trimming unless it uses the popular velvet bow trimming to replace the floral decoration.

THE GAS INDUSTRY

In view of the fact that we have a large and growing gas plant in Brainerd, that it is a public utility striving to please people and to build up its clientele, we publish a few remarks from an authority on the gas industry, Bernard J. Mullaney, vice president of The People's Gas Light & Coke Company, of Chicago, relative to the gas industry and its future, as mentioned by The Manufacturer and Industrial News Bureau.

"Gas has come out of the kitchen. It is taking on the entire job of keeping the home fires burning, and it ranges the highways and byways for the larger tasks of commerce and industry. In the home, besides cooking, it does anything and everything, from heating a cupful or a bathtubful of water to incinerating the household wastes, warming the garage, running the refrigerator, and heating the whole house, with cooling the house in summer a possibility. In shop and factory its versatility reaches from tempering watch springs to making brick and the heat-treating operations of heavy manufacturing.

"The output of manufactured gas in the United States has more than doubled in ten years. In the same period, large-volume demand for commercial and industrial purposes has grown from a mere fraction of the output to nearly 30 per cent.

"A few years ago engineers boasted of a thousand different uses for their product. An English engineer now says that gas is used in more than 21,000 industrial processes. Research and enterprise are expanding the use of gas as never before since the industry was born.

"There is room for more research and more enterprise in development of appliances; also room for modernization of rate structures. The encouraging thing is, that the industry is recognizing its needs in these fields and is moving to supply them."

Here at Brainerd the Northern States Power Company plant has been thoroughly modernized. Duplicate machinery obviates any danger of interruption of machinery. The company is steadily increasing its list of home owners and others using gas. The company offers splendid service and is willing to cooperate in many ways to extend the use of gas in industrial and other fields.

Brainerd, with its far flung city limits, offers a problem in gas main extension and service, but the local company has faced its task with determination and is meeting with well earned success.

A GOOD WORD FOR OUR LAKE COUNTRY

CAPTAIN and Mrs. W. H. Fawcett of Breezy Point Lodge are enjoying a brief visit at Havana, Cuba. In their tours about America they never fail to have some reference made to the Brainerd Lake region.

The Havana Morning Post, under a heading, "Minnesota is Represented by Prominent Folk," mentions Mr. and Mrs. John A. Henrich and Mr. and Mrs. Harry Pence and daughter Charlotte and others as guests in Havana.

"Henrich and Pence are outstanding figures in the business world of the Northwest, the latter being one of the largest automobile dealers in that section of the United States. On their visit to Cuba the members of the party are delighted with the hospitality extended them here, and all are going back with the avowed intention of spending their future vacations in the tropical island.

"While here they met many other Minnesota residents, among them being Mr. and Mrs. W. H. Fawcett of Robbinsdale, Minn., Mr. Fawcett being publisher of the internationally known Whiz Bang magazine and other publications.

"The Fawcett summer resort, Breezy Point Lodge, in the lake region near Brainerd, is one of the greatest of its kind in America, being the summer rendezvous of the elite of the movie world as well as the convention headquarters of many business organizations, is being boosted by the Minnesotans. They declare that next to Cuba, Breezy Point Lodge is the ideal vacation spot of the world, its refined atmosphere, its fishing, hunting, golf courses and outdoor sports rivalling anything of a like nature in the United States."

PROTEST DECREASE IN BUDGET

WHEN Governor Christianson was re-elected by a large majority on an economy platform, he was backed by popular approval. When he exercises such rights in using the shears on the budget for the biennium, he cannot fail to incur displeasure wherever the cuts are made.

The governor has definitely set the amount of the budget at not exceeding \$40,000,000. The University of Minnesota is but one of the institutions of the state feeling the heavy hand of the cut in the budget.

A hearing is to be held by the house appropriations committee tonight (Feb. 24) at St. Paul when officials of the University of Minnesota are expected to protest the decrease in the school's budget for the next two years.

The department of administration and finance, in its recent budget allotments for the next two years, cut the University budget by about \$900,000. A meeting of the senate finance committee is to be held tomorrow night on the same protest.

As the University is but one of the many state institutions facing a cut, we presume all of them will want hearings. And that gets us to the point that economy, in a household or a state, can only be exercised by skimping on our allowances, spending less money, or doing without things.

Economy with Christianson is no idle gesture or set phrase. It may seem drastic to the institution or individual affected, but if everybody's wishes in appropriations are gratified, there is an end to any intended economy.

ALTHOUGH interest at present is centered on the mid-winter meeting of the State Federation of Women's Clubs being held in Minneapolis today (Feb. 24), those in charge of the program for the Sixth District Federation of Women's Clubs are busily engaged in planning the convention of the district to be held at Melrose on May 8 and 9. Mrs. E. Everett Clark, St. Cloud, president of the district, will preside.

SOME of the people who are horrified because 4,000 Americans are dying a year from poisonous alcohol never seem to have noticed it when, before the prohibition era, 6,000 a year died of acute alcoholism from drinking the pure stuff, says the La Grande, Oregon, Observer.

other leaders, and that he planned to flee to Japan.

His arrival in Shanghai was unverified, however. Cantonese forces, still exultant over their Hangchow victory, were understood to be approaching Nanking, determined to conquer all the country south of the Yangtze river

before pushing across it. One report said they desired to avoid an attempt to take Shanghai forcibly, hoping their agitators in northern territory would be able to "bore from within" to give them victory.

Matinee Ladies

"MATINEE LADIES," with May McAvoy, is a Warner Bros. picture-ization of this novel.

CHAPTER I
"It isn't a fit way for a decent man to make a living!"

Bob Ward, as sincere as stubborn, and as humble as handsome, made no conscious or deliberate effort to achieve a dramatic effect. But he was so vitally young and lusty, so alive and good-natured and real, that to his two college chums it seemed incongruous to hear from his lips anything that smacked of moralizing. Their howls of derision rent the unacademic air of a University Heights boarding house.

Unaffected, undeterred, Bob spoke on quietly:

"I mean it fellows! I really don't think it's a fit, or fair, or honorable thing for a chap to make a living by acting as a clandestine escort for cheating wives!"

Once again the shabby room resounded to the unrestrained expression of the animal spirits of Fred Towers and Arch Sellen. Arch pressed his floating ribs in genuine distress.

"Oh, Bob, you old glapnot, please cut it out!" he begged. "Or you'll have to buy me a new set of buttons for this vest!"

"Yea, Bob," gasped Freddy, suffering even more acutely, "honest, if you uncork another one of those platitudes, and keep that Model Young Man look on your mug an instant longer, I'll just up and bust, that's all!"

Bob grinned good-humoredly. "Well, I'm glad you crackbrains find me amusing."

"Amusing? Omons! We're laughing at you, son, the same way we'd laugh at undertaker ads. It ain't what you say, but how you say it, and how you look!"

"Be that as it may," rejoined Bob, pleasantly, but firmly and not at all in a bantering mood, "but I don't want my sheepskin, my engineering degree, to be tainted by

that their husbands would be glad to give you an income for life if you'd take 'em and keep 'em. Honest, all you've got to do is wrestle these withered dames around for the afternoon—and draw down your fifty bucks every week. And, believe me, it's worth fifty times fifty dollars to even stand close enough to some of those polite old female wrecks to dance with them!"

The boys came close to Bob now, to plead with him. He relaxed, fidgeted, stared at them with an expression that was at once grateful and thoughtful but obdurate.

"I'm sorry, fellows," he said slowly, "because Lord knows I need the work and the money. Fifty dollars a week looks big as a house to me. But I just can't see my way clear to fattening my stomach and wallet at the expense of my self-respect. No offense, fellows, of course," he added hastily, noting the shades of resentment on his chums' faces, "because, you see, it's all in the way a fellow looks at things. You two birds philosophize about it, and don't think it's at all out of the way. Therefore, it isn't—for you. But I just can't bring myself to look at it in an offhand manner. Well, I'm registered at the University Employment Bureau, and as a member of the football squad things are made kind of easy for me. Little jobs thrown my way. You know. But those no more than cover my books and laundry and incidentals. Here I am, with graduation only a month off, not a dollar saved to pay for clothes or a railroad ticket to some place where I can practice my mining engineering—and right now, five weeks behind in my board bill to Mrs. O'Sully. Gosh, fellows, you can see that I'm in a desperate fix, and that I wouldn't turn the job down unless I had pretty strong convictions about it! Honest, I'm

"Unless you pay up by this coming Saturday, out you go!"

the knowledge that I earned it through helping married women to get vicarious thrills!"

"Now I'm sure you're making a mistake in studying engineering," taunted Arch. "You're cut out for an actor. A tank town trouper, whose virtuous ankles never trip on temptation on the stage. Whose chaste eyes see only the gold behind the digger—on the stage. Whose—"

"Aw, lay off, before I drop you out the window!" Bob uncoiled his six-foot-two frame of football bone and muscle—two hundred and ten pounds, in the aggregate—from a decrepit armchair and clutched for his tormentors.

Fred and Arch, who knew the potency of those big hands, and the fair ability of their husky possessor to make good his threat on them, one at a time or together, dodged to safety, and resorted to argument.

"You big saphead, you're in hook up to your ears, and behind in your tuition payments. How in Hannah can you afford to turn down this job?" stormed Fred, earnest now.

"This job," put in Arch, "that we were big-hearted enough to get for an ungrateful bull cow like you!"

"Yea, a foolish move that'll probably cost us our jobs—when you flop those brick scows of yours on the floor of the Inn. Madame Leonine will think we've brought her a baby boxcar instead of a dancing entertainer!"

"But can't you lounge lazards get it into your sponge cake heads that I'm telling you I don't want to be a dancing entertainer?"

"Why not, noble knight," mocked Arch. "Some of our very best students are such. Like me and Freddy, for instance—"

"Seriously, Bob," broke in Freddy, "there's nothing wrong in it. Really. I wouldn't want to do it any more than you, if there was. You know, I came from one of those old-fashioned small town families myself. You needn't worry about these ladies who come to the Inn being straying wives. Most of 'em are as old and ugly

sorry I want a job—but not just that kind of a job!"

"Hm!" It was a new voice. A most unattractive voice. A human version of the Kikenny sounds that float up from dark alleys and back fences of nights to break the slumber of the just. A belligerent, sarcastic voice. The voice, no less, of Mrs. Roberta Emmet O'Sully, the boys' landlady. Unbeknown to them, unnoticed in their absorption in the tale of Bob's financial woes, she had stealthily opened the door and stepped into the room in time to hear most of Bob's frank avowal of viewpoint and confession of abject poverty. Sympathy was not in the lexicon of Mrs. O'Sully's business and dumping methods. Only one thing about Bob's little speech stuck in her mind: "So it's turning down a job, you are. And you own me money these many weeks, and me lettin' you stay on in the softness of me heart because I believed you when you said you were tryin' to get work, but couldn't. And now I hear you turn down fifty dollars—Saints be!—a week, because you think you're too good for the work, or something. Though it's not too good you are to gyp a poor, hardworking lady of her lawful money—"

"Now, Mrs. Sully, please—" Bob was genuinely distressed.

But she hushed him with an imperious gesture. "It seems to me, young man, that any kind of work that will make it possible for you to pay your debts would be honorable enough work for the likes of you. I'm sure if it's good enough for those young gentlemen—"

she beamed upon Arch and Freddy, who were paid up—"it's good enough for you."

Mrs. O'Sully's face grew coarse and hard as she turned her little eyes upon Bob again, and shook a finger under his nose. "Unless you pay up by this coming Saturday, out you go!"

She gave Bob no chance to parley or plead, but turned and stamped angrily out of the room. There was grim foreboding in the frown of her broad hips.

Bob's face was tragic, hopeless.

Betty Bronson Heads All Star Cast in "Everybody's Acting" B. H. S. Junior Benefit at Lyceum

If the term "all star" were not so often misused and abused, so that it has practically lost its pristine glory, it would be a temptation to apply it to the notable cast of screen and stage favorites Marshall Neilan has assembled for his current production, "Everybody's Acting," which is showing at the Lyceum today and Friday.

As the title suggests, "Everybody's Acting" deals with the theatre and more particularly with the backstage life of a troupe of actors. The central character is a little orphan girl who is adopted by five god-fathers. Her childhood experiences and later on her theatrical career and romance make up a picture rich in humor, pathos and human interest drama.

PROTEST DECREASE IN BUDGET

WHEN Governor Christianson was re-elected by a large majority on an economy platform, he was backed by popular approval. When he exercises such rights in using the shears on the budget for the biennium, he cannot fail to incur displeasure wherever the cuts are made.

The governor has definitely set the amount of the budget at not exceeding \$40,000,000. The University of Minnesota is but one of the institutions of the state feeling the heavy hand of the cut in the budget.

A hearing is to be held by the house appropriations committee tonight (Feb. 24) at St. Paul when officials of the University of Minnesota are expected to protest the decrease in the school's budget for the next two years.

The department of administration and finance, in its recent budget allotments for the next two years, cut the University budget by about \$900,000. A meeting of the senate finance committee is to be held tomorrow night on the same protest.

As the University is but one of the many state institutions facing a cut, we presume all of them will want hearings. And that gets us to the point that economy, in a household or a state, can only be exercised by skimping on our allowances, spending less money, or doing without things.

Economy with Christianson is no idle gesture or set phrase. It may seem drastic to the institution or individual affected, but if everybody's wishes in appropriations are gratified, there is an end to any intended economy.

But she hushed him with an imperious gesture. "It seems to me, young man, that any kind of work that will make it possible for you to pay your debts would be honorable enough work for the likes of you. I'm sure if it's good enough for these young gentlemen—" she beamed upon Arch and Freddy, who were paid up—"it's good enough for you."

Mrs. O'Sully's face grew coarse and hard as she turned her little eyes upon Bob again, and shook a finger under his nose. "Unless you pay up by this coming Saturday, out you go!"

She gave Bob no chance to parley or plead, but turned and stamped angrily out of the room. There was grim foreboding in the founce of her broad hips.

Bob's face was tragic, hopeless. (To be continued.)

A Paramount Picture

Betty Bronson Heads All Star Cast in "Everybody's Acting" B. H. S. Junior Benefit at Lyceum

If the term "all star" were not so often misused and abused, so that it has practically lost its pristine glory, it would be a temptation to apply it to the notable cast of screen and stage favorites Marshall Neilan has assembled for his current production, "Everybody's Acting," which is showing at the Lyceum today and Friday.

As the title suggests, "Everybody's Acting" deals with the theatre and more particularly with the backstage life of a troupe of actors. The central character is a little orphan girl who is adopted by five god-fathers. Her childhood experiences and later on her theatrical career and romance make up a picture rich in humor, pathos and human interest drama.

CUP RACE ON IN SUNDAY SCHOOL LEAGUE

EVANGELICALS IN BIG LEAD IN S. S. BASKETBALL RACE

JUNIOR AND INTERMEDIATE TEAMS HAVE YET TO TASTE DEFEAT

HALF OF JUNIOR SCHEDULE IS PLAYED, EIGHT GAMES YET IN OLDER DIVISION

Games Tonight at Y. M. C. A.
7:00—Beth. Luth. vs. Presby. Juniors.
7:40—Meth. vs. Finnish Luth. Intern.

The Evangelical basketball teams enjoy a big lead over their opponents in the race for the Junior and Intermediate Sunday school trophy cups, neither team having as yet been defeated. The Juniors lead their division with four games in the win column, while the Intermediates have won all of the three games they have played so far.

Last night the Evangelical Juniors stepped over the Methodists for a victory of 8 to 1. White tallying the sole point for the losers, while Marshall and Wolcott each made two field goals for the winners.

In the Intermediate game, the Evangelicals won over the Baptists by 23 to 13, with almost every man on the squad taking part in the scoring. Purdy made one field goal, Hansen 1, Marshall 3, Swearingen 2, and Stanley 3, while Marshall also put in one free throw and Rasch put in two. For the Baptists, Storm made three baskets, Lewis two and Thompson one, with Lewis making one free throw in addition.

On Tuesday night, preceding the games at the high school, the Methodist Juniors noted out the Presbyterian 13 to 12, and the Baptist Intermediates won over the Finnish Lutherans, 16 to 3. Anderson made three field goals, Belmuth 1, Patterson 1 and Nordstrom 1 for the Presbyterians, and White made five and Bouma one for the winning Methodists, Mayo putting in the free throw that eventually meant victory.

In the Baptist-Finnish Lutheran game, Lewis made two field goals, Storm 3, Schubert 1 and Thompson 2, while Gulland with a field goal and Hay with a free throw scored all the points for the losers.

On Monday night the Evangelicals won a double-header, although there has been considerable question over the victory of the Junior team over the Lutherans, because of the winning basket which caromed off the ceiling into the net. The score was 6 to 5. Clausen making two field goals and Marshall one for the winners, and Halvorson two for the Lutherans, with Smith scoring a free throw.

In the other game that evening,

PAOLINO IS TO BOX HANSEN

FLYING ACES HURL GAME CHALLENGE AT RAINBOW FIVE

CONTEST WOULD SETTLE CHAMPIONSHIP OF CITY INDEPENDENT BASKETBALL

DEFY NOT YET ACCEPTED BY RAINBOWS, MUCH PRESSURE BY FANS FOR GAME

The Flying Aces, Brainerd's most recent entry for independent basketball honors and a team that contains many well-known stars of the court game, have hurled a biting challenge for a game with the Rainbows team, or any other wishing to claim the championship of the city, the challenge being made in the following words:

"To whom it may concern: The Flying Aces basketball team hereby claims the championship of the city of Brainerd in independent basketball, and challenges any team disputing their claim to play a deciding game in the near future. Rainbows particularly invited to take notice."

When seen this morning, Manager Peterson of the Rainbows had as yet not decided upon the challenge. Those nearest him, however, seem to think that he will not let such a challenging claim to city honors pass unheeded. The Rainbows have always been considered the champion-

ship squad of the city by right of inheritance, until the rise of the Flying Aces under the management of "Swede" Erickson.

If the game is played, it will be held sometime next week and will constitute the only remaining appearance before the public of either of these teams. The Rainbows-Duluth game scheduled for this Saturday has been cancelled because of the scheduling of two games by the high school for that night.

Considerable rivalry is manifested between these two teams, and supporters of both factions are girding themselves for a battle of words preliminary to the game. Large delegations of backers are planning to attend the game in an effort to bring victory to their favorites.

Fans are urged to watch the papers for further announcements regarding this game.

Burke shot the third round of the tournament in 69, a new course record, and four under par.

SECOND NUMBER IN ELIMINATION CONTEST FRIDAY

ONLY SCANT ATTENTION BEING ACCORDED BASQUE STRONG BOY AND OPPONENT

MOST FANS BELIEVE NEITHER HAS A PLACE IN BOXING TOURNNEY

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, Feb. 24.—After all the tumult over the talk of ticket speculating and smart betting before the recent Maloney-Delaney fight, the second number of Tex Rickard's heavyweight elimination tournament tomorrow night between Paolino, the basque strong boy and Knute Hansen, is drawing only scant attention.

Most fans believe that neither Paolino nor Hansen belong in a tournament designed to find the logical opponent for Gene Tunney in a heavyweight championship fight. They charged that Rickard's motive in using Paolino was that of a showman instead of a boxing promoter.

Perhaps it is not fair to rule Paolino out of consideration as a challenger until he is given a test but the fact remains that there is nothing in his past record that would warrant a rating with Maloney or

Sharkey, who as leading challengers may be only good ones of a poor lot and far from great ones.

The writer was punished several years ago by sitting through a twenty round fight in Paris between Paolino and George Cook, which Cook won on a decision that wasn't even close. Cook, it will be recalled was a terrible bust even among the third raters when he was in this country.

Paolino's board of managers, consisting of several chairmen, interpreters and others say that he is a vastly improved fighter but Paolino's style of fighting is not one that lends himself to improvement, especially in the hands of novices who know no more about fighting than Firpo's amateur handlers.

"You've got to get those fellows young because when they learn you can't unlearn 'em and they all learn wrong," Jimmy De Forest says.

Paolino is a big strong fellow but so muscle-bound and so slow he can't get anything out of his physical endowments. He has a bad hand that doctors say never can be repaired because he doesn't know how to hold his hand when he hits and that he is too far along to be taught correctly. Hansen will be dropped if Paolino lands solidly but he might as well go home.

There have been the usual stories, which have come to be a routine rumour before a big fight, that it is "in the bag" but what reason would there be for any arrangements?

GOLF NOW HAS ITS AMATEUR PROBLEM

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 24.—After watching the United States Lawn Tennis association and the Amateur Athletic Union roll around the mat with the amateur problem for three or four years, the Golf association has now heard the call of the announcer, "You're next!"

The mental heavyweights of the tennis and athletic councils have failed to keep the pesky problem down for the required count and as the job has turned into a three-man handicap, the tired battlers welcome a fresh ally from the training course of golf.

Golf has kept clear of the problems that beset the tennis and track bodies by adopting a less puritanical attitude in drawing a line between amateurs and professional classes.

The most serious offenders against the ethics of golf amateurism were those who engaged in the sporting goods business but when the association decreed that names couldn't be bartered so commercially, the offenders closed shop and everyone was happy.

The golf association said their boys could write for papers or magazines but they drew a firm blue pencil through all items of expenses for all tournaments with the exception of those foreign classics to which the association sent an official invading party. And the expenses allowed for those trips, let it be known, have been mighty slim.

Bobby Jones, Jess Sweetser, George Von Elm and the other boys who made the grand sweep through Scotland and England last summer, were allowed \$1,000 each for expenses.

The golf officials are now in for it since Mary K. Browne asked for a ruling on her status as a golfer.

Miss Browne is a professional player and she wants to know if her pro-player and a good one. She also is a first class golfer. She holds the distinction of having been the only athlete of either sex to play in the final round of a national tennis and golf championship in the same season.

Miss Browne is a professional player and she wants to know if her professional tennis activities make her ineligible to play as an amateur.

Using good sense, the golf association did not exercise snap judgment in settling the issue. The officials decided to think it over well and long and then give their decision.

It's a tricky case from a golf standpoint. The nearest ruling that might be applied to her case was made several years ago with the decision that a man who became a professional football coach did not sacrifice his amateur status on the links.

There is another angle to consider. Professional baseball players are permitted to play as amateurs. But the question never has been put up to decide if a professional in another calling of sport would be accepted as an entry in a national championship.

Miss Browne, however, wants to play in the amateur championships because there is no professional or open field for a player of her sex.

The men pros of golf have a very fertile field but a woman professional would have to be content from the fees, small in comparison, which she could collect from giving instructions.

DENIES AGREEMENT

REACHED TO SETTLE CHAPLIN DIVORCE

New York, Feb. 24.—(UP)—A report that counsel for Charles Chaplin and Mrs. Lita Grey Chaplin had reached an agreement to settle their divorce suit out of court was denied by Nathan Burkan, counsel for the comedian. "More than that," Burkan added, "we would not consider settling the case out of court even if Mrs. Chaplin's attorneys asked that that be done."

"We stand by our previous statement—that Mrs. Chaplin in her divorce suit has a claim on the two boys and their children and we shall not be content until that claim has been erased. That will have to be done in open court."

Burkan was so quick to deny the report that when he was approached by a United Press reporter, he said, before he had been asked a question: "There is absolutely nothing to it."

DENIES AGREEMENT REACHED TO SETTLE CHAPLIN DIVORCE

New York, Feb. 24.—(UP)—A report that counsel for Charles Chaplin and Mrs. Lita Grey Chaplin had reached an agreement to settle their divorce suit out of court was denied by Nathan Burkan, counsel for the comedian. "More than that," Burkan added, "we would not consider settling the case out of court even if Mrs. Chaplin's attorneys asked that that be done."

"We stand by our previous statement—that Mrs. Chaplin in her divorce suit has a stain on the two innocent Chaplin children and we shall not be content until that stain has been erased. That will have to be done in open court."

Burkan was so quick to deny the report that when he was approached by a United Press reporter, he said, before he had been asked a question: "There is absolutely nothing to it."

Rawlins, Wyo., Feb. 23.—(UP)—A few hours after they had gone "on strike" because of alleged cruel treat-

Piles Disappear

No Cutting or Salves Needed

External treatments seldom banish Piles and for the very good reason that the cause is inside—bad circulation in affected parts, veins are flabby and bowel walls weakened.

To quickly and safely rid yourself of piles you must first the circulation—send fresh, healthy blood to the raw, sensitive membranes. Internal treatment is one safe method. Ointments and other external treatments can't give lasting relief.

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and it has proven successful in thousands of cases—so successful that now HEM-ROID is sold by druggists under a money back guarantee. It is a harmless tablet, easy to take, and can always be found at H. P. Dunn's, Johnson's Pharmacy, who will promptly refund the purchase price if you are dissatisfied.

This Great Healing Oil Must Banish Eczema & Skin Troubles

Or Your Money Back. That's the Plan on Which Emerald Oil Is Sold by H. P. Dunn and All Good Druggists

Make up your mind today that you are going to give your skin a real chance to get well.

You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to H. P. Dunn or any good druggist today and get an original bottle of Moone's Emerald Oil. The very first application will give you relief and a few short treat-

ment to seven convicts in isolated cells, 44 prisoners in the state penitentiary here were back at their tasks today.

The prisoners refused to report on their different jobs at 7 a. m. Two hours later all but five had returned and the "hold-outs" returned before noon.

A similar strike was held several weeks ago when 33 convicts "walked out." This strike lasted several days.

Warden Frank Hadsell said the real basis of the trouble apparently was that the convicts imagined their tasks were too great.

"They've got it easy, compared to some penitentiaries," he said.

IF RHEUMATIC EAT NO SWEETS

Says Glass of Salts Help to Overcome Rheumatism

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kind.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keep accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

PRES. LEWIS LEAVES FOR NORTH TODAY

INTENT ON SEEKING FURTHER CONFERENCE WITH COAL MINE OPERATORS

Miami, Fla., Feb. 24. — (UP) — President John L. Lewis of the United Mine Workers prepared to leave for the north today, intent on seeking further conference with coal mine operators.

Following failure of the parley just ended to replace the Jacksonville wage agreement, which expires April 1, Lewis said he would "work toward Indianapolis," headquarters of the miners, on a tour of coal fields. He will confer en route with individual operators and miners' unions. A meeting of the United Mine Workers' policy committee yesterday is said to have invested Lewis with full authority to continue negotiations.

Most of the delegates to the spirited conference were leaving for their homes in the north today. A few remained to enjoy the surf bathing and other sports now available at Florida resorts.

ESCAPE-GRACE SON OF MILLIONAIRE FOUND GUILTY OF MURDER

Canton, O., Feb. 24. — (UP) — Ben Rudner, scape-grace son of a millionaire merchant, faces life imprisonment today for the assassination of Don R. Mellett, Canton editor, last July.

A jury of seven women and five men, in common pleas court, last night returned a verdict of guilty of second degree murder. The verdict made a sentence of life imprisonment mandatory.

Rudner is the second man convicted of the killing. Pat McDermott, who fired the fatal shot, was sentenced to life imprisonment in December. Louis Mazer, alleged to have been Rudner's lieutenant in carrying out the murder conspiracy, will be tried next Monday.

The defense announced its intention of filing a motion for a new trial and Judge A. W. Agler set next Monday morning as the time for hearing the petition. Rudner will be sentenced immediately if the motion is overruled.

PRISONERS ON SHORT STRIKE

Rawlins, Wyo., Feb. 23. — (UP) — A few hours after they had gone "on strike" because of alleged cruel treat-

Piles Disappear

No Cutting or Salves Needed

External treatments seldom banish Piles and for the very good reason that the cause is inside — bad circulation in affected parts, veins are flabby and bowel walls weakened.

To quickly and safely rid yourself of piles you must free the circulation — send fresh, healthy blood to the raw, sensitive membranes. Internal treatment is one safe method. Ointments and other external treatments can't give lasting relief.

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and it has proven successful in thousands of cases — so successful that now HEM-ROID is sold by druggists under a money back guarantee. It is a harmless tablet, easy to take, and can always be found at H. P. Dunn's, Johnson's Pharmacy, who will promptly refund the purchase price if you are dissatisfied. —Advt.

This Great Healing Oil Must Banish Eczema & Skin Troubles

Or Your Money Back. That's the Plan on Which Emerald Oil Is Sold by H. P. Dunn and All Good Druggists

Make up your mind today that you are going to give your skin a real chance to get well.

You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to H. P. Dunn or any good druggist today and get an original bottle of Moore's Emerald Oil. The very first application will give you relief and a few short treat-

ment to seven convicts in isolated cells, 44 prisoners in the state penitentiary here were back at their tasks today.

The prisoners refused to report on their different jobs at 7 a. m. Two hours later all but five had returned and the "hold-outs" returned before noon.

A similar strike was held several weeks ago when 33 convicts "walked out." This strike lasted several days. Warden Frank Hadsell said the real basis of the trouble apparently was that the convicts imagined their tasks were too great.

"They've got it easy, compared to some penitentiaries," he said.

IF RHEUMATIC EAT NO SWEETS

Says Glass of Salts Help to Overcome Rheumatism Acid

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kind.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keep accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. —Advt.

SAGE TEA TURNS GRAY HAIR DARK

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold. Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for only 75 cents, all ready for use.

It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. —Advt.
